RESPONSE TO ELECTION OF SPECIES REQUIREMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In reply to the September 9, 2005 Election of Species Requirement, Applicants provisionally elect Species a, Figures 1-3, with traverse. At least claims 1-3 and 5-9 read on elected Species a.

Although the Election of Species Requirement alleges that no claim is generic, Applicants respectfully submit that at least claims 1, 2 and 5-9 are generic to all species. Support for the features recited in at least claims 1, 2 and 5-9 may be found in Figs. 1-16 and in the respective sections of the Detailed Description of Exemplary Embodiments.

It is also respectfully submitted that the subject matter of all species is sufficiently related that a thorough search for the subject matter of any one species would encompass a search for the subject matter of the remaining species. Thus, it is respectfully submitted that the search and examination of the entire application could be made without serious burden. See MPEP §803 in which it is stated that "if the search and examination of an entire application can be made without serious burden, the examiner must examine it on the merits,

even though it includes claims to independent or distinct inventions" (emphasis added). It is respectfully submitted that this policy should apply in the present application in order to avoid unnecessary delay and expense to Applicants and duplicative examination by the Patent Office.

Thus, withdrawal of the Election of Species Requirement is respectfully requested.

Respectfully submitted,

James A. Oliff
